

The McCracken County Board of Education will be providing student/athletic accident insurance for the 2007-2007 school year. The plan is designed to provide benefits for any student or athlete who is injured while participating in a school sponsored/school supervised activity.

In the event of an accident, please contact the school principal to obtain a claim form. The claim needs to be filed within 90 days of the date of injury and benefits are payable for one year. The policy is a secondary policy and will pay after any personal insurance that you might have has paid its maximum. Any questions relating to a claim should be directed to K & K Insurance Group, Inc. at 1-800-237-2917.

Optional insurance coverage through Commercial Travelers and K & K Insurance Group is also available for parents/guardians to purchase additional insurance for student(s). An application is included in the student packet.
