

Google Classroom for Parents

If you would like to see your child's Google Classrooms, you can access his/her dashboard by following these directions:

- Go to <https://classroom.google.com/>
- Login using YOUR CHILD'S Mccracken email address and password. Your child can provide this login information to you.

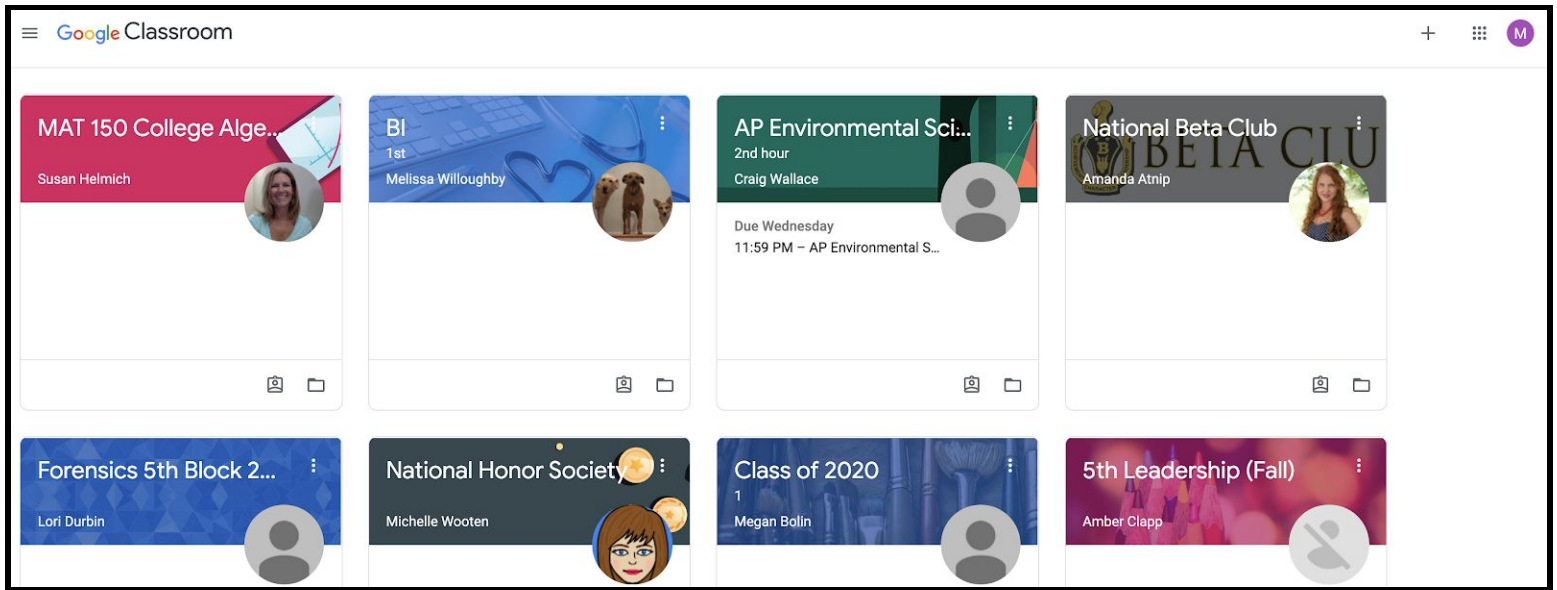

Figure 1

- Once you log in, you should see your child's Google Classroom Dashboard (figure 1)
- From the dashboard, click on any class to view its Google Classroom page.
- When viewing an individual class, you can click on the little three-line icon in the upper left corner of the screen in order to view and overall class menu (figure 2).

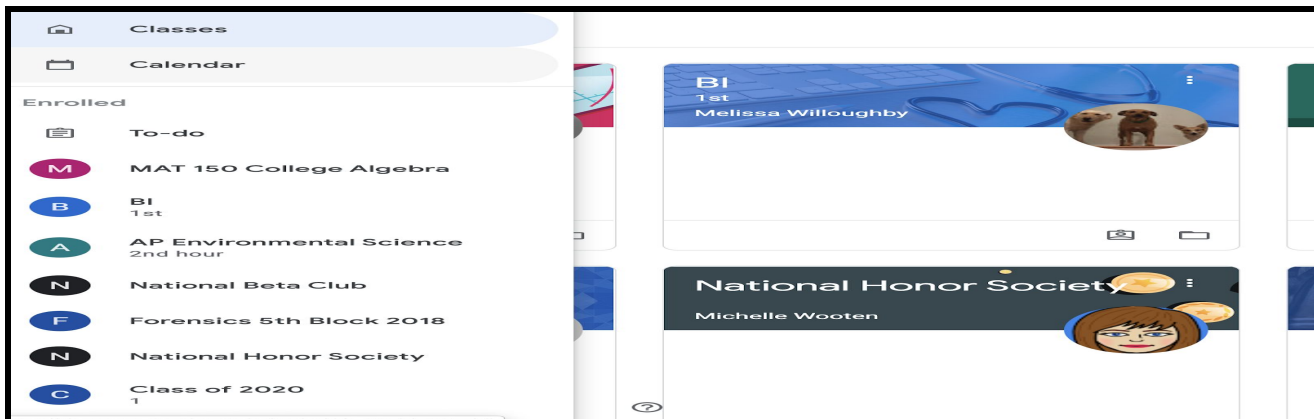

Figure 2

- If you have more than one child using Google Classroom, you can add both accounts and view both students from the same site.
- To add another account, click on the email address you see in the upper right corner of the dashboard, and select “Add account.”
- To switch between accounts, click on the email address in the upper right corner of the dashboard, and just select the account you would like to see (figure 3).

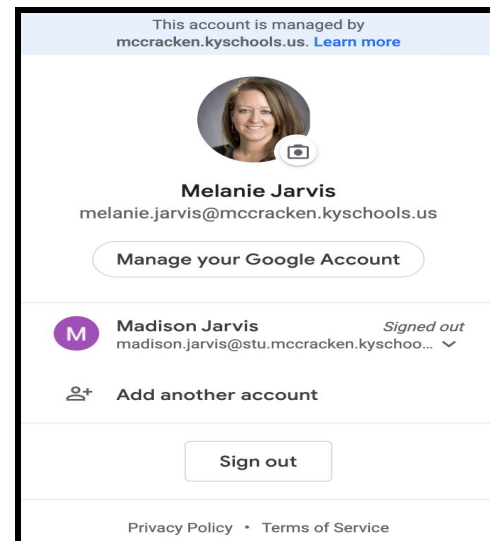

Figure 3

- If you are interested, download the free Google Classroom app for your phone as well. Once you download the app, again log in using YOUR CHILD’S McCracken email address and password and you will be taken to his/her Google Classroom dashboard.
- The app also allows you to manage multiple accounts. To add accounts in the app, click on the letter in the top right-hand corner (figure 4).
- Click on Manage accounts (figure 5)
- Add another account
