

What's Under My Thumb?

Created by Box Cars and One Eyed Jacks

Pull a domino out of the bag. Don't show it to your favorite first grader! Figure out how many dots are on the domino altogether. This is called the sum. Now put your thumb so it covers one side of the domino and show the domino with one side covered to your first grader. Tell your first grader what the sum is and have them figure out what the number is under your thumb.

“ _____ is the sum. What's under my thumb?”

This game helps with subtraction and missing addends.

There is a video available so you can watch how to play the game if you have any additional questions.
